## Definitions

**Named User:** An authorized user to use the programs which are installed on a single server or multiple servers, regardless of whether the user is actively using the programs at any given time.

**Named User Licensing Metric:** This metric is used in environments where users can be identified and counted. A Named User can access the applications on any instances where it is deployed.

**Software Update and License Support:** Provides users with the right to product upgrades and 24x7 technical support. Product upgrades includes upgraded versions of software, maintenance releases, and patches. Users receive direct access to CAFDEX<sup>®</sup> experts for product-specific questions.
